Dear Lou,

If you are making any kind of preparations, you may want to do so checking on the enclosed records on Joseph Tafe, Criminal Division when arrested on the weird charge down there, later in openly political work at the Harrisburg conspiracy case, leaning on people. I'd be interested in anything you get. I don't know what Criminal lawyers were doing in N.O. during 9/69, but my hunch would be organized-crime task force. With this kind of guy working on the case, what couldn't happen? And who ever heard of such things being ignored, by Hoover or the DJ? Instead, he is awarded greater trust. HW
